

CLIMATEWORX

INTERNATIONAL

FOR ALL YOUR MISSION CRITICAL NEEDS

Optimize and Save Energy

- Reliable Mission Critical Climate Control
- Equipment and HVAC Systems Layout
- Vertical Floor Mount
- Wall/Ceiling Mount
- Plenum System Fan Units
- High Density Solutions

Protect/Manage IT Investment

- Server Cabinet
- NEMA/Seismic/Tempest
- Network Rack
- Cable Management Systems
- Power Supply/Protection
- Raised Flooring/Under Floor Support

Thermal Assessment Services

- Computational Fluid Dynamic Studies
- Data Room Performance Analysis
- Cooling Capacity vs. Performance Analysis
- Hot Spots/Distribution Corrections

Please contact us to see how ClimateWorx International can help you reach your design objectives:

1-50 Tons

ClimateWorx has a unit to fit all needs

Product Line

P-Series

3-50 tons

VERTICAL FLOOR MOUNT

Designed for Precision
Built for Efficient Performance

Cooling Modes

- Chilled Water

Configurations

- Down Flow w/EC Plenum Fan
- Up Flow w/EC Plenum Fan

For available options please refer to P-Series brochure

Series IR

3 tons

HIGH DENSITY IN-ROW

Configured for Compact Footprint and Maximum Flexibility.
Available in 12" width.

Cooling Modes

- Air Cooled DX
- Water Cooled DX
- Glycol Cooled DX
- Chilled Water

Configurations

- Rear to Front Flow
- DX in 410A

For available options please refer to Series IR flyer

Series 6, 8 & 9

VERTICAL FLOOR MOUNT

ALL UNITS AVAILABLE WITH:

Cooling Modes

- Air Cooled DX
- Water Cooled DX
- Glycol Cooled DX
- Chilled Water

Configurations

- Up Flow
- Down Flow
- DX in 407C

Standard Features

- SCR Controlled Electric Reheat
- Electrode Steam Humidifier
- M52 Microprocessor

Series

6
2-5 tons

Compact Footprint to Allow Efficient Use of Floor Space

Series

8
6-10 tons

Single Circuit for Cost Effective Cooling

Series 8 Options:

- Up Flow-Front or Rear Return (Option)
- Hot Water Reheat Coil
- Steam Reheat Coil
- Hot Gas Reheat Coil

Series

9
6-30 tons

Dual Circuit Reliability for Ultimate Protection

Series 9 Options:

- Dual and Free Cool
- Up Flow-Front or Rear Return (Option)
- Hot Water Reheat Coil
- Steam Reheat Coil
- Hot Gas Reheat Coil

For available options please refer to Series 6, 8 & 9 brochure

Series 7 & 11

WALL & CEILING MOUNT

ALL UNITS AVAILABLE WITH:

Cooling Modes

- Air Cooled DX
- Water Cooled DX
- Glycol Cooled DX
- Chilled Water

Configurations

- Split Systems
- DX in 407C
- Digital Programmable Thermostat

Series

7
1.5-2.5 tons

Compact wall mounted split precision for efficient use of space, and effective, high-sensible cooling performance

Series 7 Options:

- 1kW or 2kW Reheat
- Electrode Steam Humidifier
- M52 Microprocessor

Series

11
1-5 tons

Compact ceiling mounted for reliable and efficient environmental control

Series 11 Options:

- Ducted and Non Ducted Configurations
- 5 kW Single Stage Reheat
- SCR Controlled Electric Reheat
- Electrode Steam Humidifier
- Packaged Configuration
- M52 Microprocessor

For available options please refer to Series 7 & 11 brochure
